We have six acres new setting of the best varieties.

Senator Dunlap. A universal favorite. If you only set one variety this should be your choice. Price 60 cents per 100 or \$4.00 per 1000.

Gibson. The color, large size and regular shape of this berry, combined with its excellent flavor and keeping qualities make it a market berry of great value. Price 60 cents per 100 or \$4.00 per 1000.

Kellogg's Prize (Imp.) A late variety, well liked on account of its long bearing season. 60 cents per 100 or \$4.00 per 1000.

Dr. Burrill. An excellent variety for canning. Delicious flavor. Excellent shippers and good keepers. Plant growth is remarkably strong and healthy, a great drought resister. Price 75 cents per 100 or \$5.00 per 1000.

Premier. The earliest of all and always in demand on any market. Price 75 cents per 100 or \$5.00 per 1000.

Eaton. The strawberry supreme. No other variety can excel Eaton in size of berries, flavor, quality or productiveness, and with the added feature of its unusual firmness and keeping qualities, it is beyond all question the greatest and most profitable market variety ever produced. Price \$1.50 per 100 or \$12.00 per 1000.

500 of any of the above varieties at thousand rates.

Progressive Everbearing proved to be the best everbearing strawberry introduced. Price \$1.50 per 100, or \$12.00 per 1000.
